

Hello

The Christian Police Association (CPA UK) is using a membership database on ChurchSuite. This is a secure cloud based system and is a popular choice for churches. It allows good communication options and good management of Data Protection.

We send emails using this system and these emails include On and Off Duty our monthly magazine. Please check that our ChurchSuite emails don't end up in your spam filter or other sub folder. General emails are sent from **christianpoliceassociation@mg.churchsuite.com**

We also occasionally send Consent Request emails - these are about your data that we hold as the Christian Police Association. Consent Request emails are sent from **no-reply@tx.churchsuite.com**

The Consent Request email will allow you to:

- Review the details that CPA holds about you
- Review the CPA Privacy Policy
- Update relevant details
- Update communication preferences
- Consent to CPA holding this data
- Request to be forgotten (details removed)

Please let me know if you have any questions.

God Bless,

**Tony Gale**  
**Executive Support Manager**  
**Christian Police Association**
